

Terms of use agreement for the data of the Microcensus Labour Force Survey

1. The data are made available by STATISTIK AUSTRIA for the duration of the specified project and to the specified person(s) (data user(s)). The use of the data is possible only until the end of the project, as well as when the data user(s) leave(s) the project.
2. The data may only be used for scientific research purposes. Utilisation for commercial or other non-research purposes is not permitted; for such purposes, a separate agreement has to be made between the parties.
3. Any extension of the duration of data use for further research, or the addition of authorised data users, must be communicated in writing and without prior request to info@aussda.at. A new or modified terms of use agreement is only valid after written approval from STATISTIK AUSTRIA.
4. The applicant is responsible for ensuring compliance with and informing other data users of the terms of this agreement.
5. The data may not be shared with any natural or legal persons, neither for remuneration nor free of charge.
6. STATISTIK AUSTRIA accepts no liability or warranty for the consequences of delays in the dissemination of the data, for inaccuracies arising from the collection and processing of the data, nor for any direct or indirect harm resulting from the direct or indirect use of the data. Copies of the information contained in the data and other references to the data must be labelled with the following source reference: STATISTIK AUSTRIA, Microcensus Labour Force Survey (MC LFS) and the respective year.
7. The data user will publish results in accordance with statistical practices. Since the Microcensus Labour Force Survey is a sample survey, margins of error should be considered. Further information is available in the *Data Description/Codebook*. The re-anonymisation of data, or the publication of individual data, is not permitted. The merging of the data with other non-anonymised personal or household-related data is not authorised.
8. The results obtained from the data, as well as any publications referring thereto, shall be made available to STATISTIK AUSTRIA free of charge for its internal use only. Notification must be provided via email to info@aussda.at, and an electronic copy must be attached.
9. STATISTIK AUSTRIA is authorised to withdraw the right of use at any time. Failure to comply with these Terms of Use will result in exclusion from further use of data from the Microcensus Labour Force Survey.

Microcensus Labour Force Survey - Use of data

Required data:

- ☐ MC LFS annual data
- ☐ MC LFS quarterly data
- ☐ LFS module
- ☐ Other:

Period (Please enter the desired year or quarter of the dataset):
